

Project Plan (PLAN "A")

Think Back

Things I have learned from doing other projects that I want to *use* this time:

Things I have learned from doing other projects that I will *do differently* this time:

Think Ahead

This is my assignment

This is my important question

These little questions will help me start my search (list at least 5):

My project is due on (date) _____

Check one, two, or all three

- _____ I will have class time to work
- _____ I will have library time to work
- _____ I will need to work on parts of this at home

This is how much time I can spend doing different parts of my project

(Be prepared to adjust your time as you go along.)

Explore _____ (should already be done...check off when you have developed your important question)

Plan _____ (number of hours, classes, days, weeks you plan to allot)

Search _____ (number of hours, classes, days, weeks you plan to allot)

Present _____ (number of hours, classes, days, weeks you plan to allot)

This is where I will *start* to search for information (Use at least *three* sources of information.)

1. _____
2. _____
3. _____
4. _____
5. _____

Potential search terms/key words:

_____	_____
_____	_____
_____	_____
_____	_____

When I am done, I will present my ideas to _____

because _____

These are some things I might like to make or do to present my thoughts

1. _____
2. _____
3. _____

If you check "not yet" to any of the following four questions, STOP.
Do what it takes to check "yes" for all, and then GO AHEAD.

1. I have analyzed and discussed with my partner/group/class **examples of presentations** similar to what I plan to make or do
___yes ___not yet
2. A **marking rubric** has been developed/discussed in class
___yes ___not yet
3. I understand how my work will be marked
___yes ___not yet
4. The rubric is attached to my plan so I can refer to it often
___yes ___not yet

Project Plan (PLAN "B")

Use a different colour and mark your changes on PLAN "A", OR print a new PLAN "A" page and start fresh. **Keep your first plan with your project.**

I need to change my plan because
